1 Dylan Beck

12:15

Time to complete

1. What are your first and last names? \*

Dylan Beck

2. By what name should I address you? \*

Dr. Beck or Professor Beck

3. What are your pronouns? (Check all that apply.) \*

he / him his

she / her / hers

they / them / theirs

Other

4. What class are you in? (Check all that apply.) \*

- MA090: Intermediate Algebra
- MA146: Trigonometry
- MA281: Introduction to Linear Algebra
- MA383: Introduction to Modern Algebra

5. What is your year of study?

- freshman
- sophomore
- junior
- senior
- Other

6. What is your academic major? (Check all that apply.)

- accounting
- (human) biology
- (international) business
- (bio)chemistry
- communication studies / mass media
- computer science
- economics
- (elementary, middle-level English, middle-level mathematics, music, or secondary) education
- exercise science / physical education / (public) health / health humanities
- graphic design
- history
- language arts (English, French, German, or Spanish)
- mathematics
- music / studio art / theatre
- philosophy
- physics
- prenursing
- psychology
- recreation / sports administration
- religious studies
- sociology
- Other

7. How do you feel about mathematics? (A choice of ten indicates that mathematics is one of your favorite subjects; a choice of one indicates that you do not like mathematics at all.)

1    2    3    4    5    6    7    8    9    10  
                          

8. How have you performed in previous mathematics courses? (A choice of ten indicates that you have consistently excelled in mathematics in the past; a choice of one indicates that you have had to retake more than one mathematics course in the past.)

1    2    3    4    5    6    7    8    9    10  
                          

9. Why are you enrolled in my course(s)? (Check all that apply.)

- It fulfills a degree requirement.
- I enjoy learning about new mathematics.
- I am your instructor!

10. Where do you consider to be your home?

Springfield, MO (My mom, sister, and nephew live there!)

11. What are your "realistic" career plans?

I intend to become a tenured professor of mathematics at some college or university. Eventually, I would love to return to my alma mater Missouri State University to teach mathematics and to advise graduate students, but I would also enjoy teaching some sort of discussion-based humanities course at a high school.

## 12. What is your "dream job?"

I am an impassioned musician and freelance music producer with several ongoing music projects. (Check my web page for more information!) If I could successfully pursue a career in music production, I would consider it.

## 13. What hobbies or activities do you enjoy in your free time?

I record and produce music. Here is the LinkTree for all of the bands that I manage!

[https://linktr.ee/for\\_love\\_of\\_carlo](https://linktr.ee/for_love_of_carlo)

Other than that, I play old video games (e.g., the Mega Man series and the Mega Man X series), and I enjoy board games (e.g., Fibbage and Quiplash on JackBox Games), cycling, cooking, and listening to music, as well.

## 14. What is something you would recommend? (This can be artistic like a song or album, a television series or movie, a video or board game, a book, a photograph or painting, or it could be a food item, a restaurant, a vacation destination, etc. Use your imagination!)

I will recommend one of each! (I have a lot of opinions.)

-- Sufjan Stevens is my favorite musician. ILLINOIS is my favorite album of his. Recently, though, I have been listening to a lot of instrumental music (e.g., ambient, drone, and post-rock). Be sure to check out the self-titled record from the band This Will Destroy You for some truly epic and life-affirming stuff.

-- Earlier this year, I watched both seasons of the FX series DAVE. It was surprisingly wholesome and funny.

-- If you enjoy outlandish humor, I recommend the films THE SURE THING (with John Cusack and Daphne Zuniga) and THE BIG LEBOWSKI (with Jeff Bridges, John Goodman, and Julianne Moore).

-- Like I mentioned before, the MEGA MAN X video game series is an all-time favorite. I have been steadily making my way through them all again over the past year.

-- HAMLET is a classic. I am also fond of the Harry Potter series.

-- Melissa Santamaría (@melissazrttt on Instagram) does incredible generative art.

-- If you're ever in Kansas City, Missouri, be sure to drop by Pirates Bone Burgers for an amazing vegan burger.

15. How much wood would a woodchuck chuck if a woodchuck could chuck wood?

Because a woodchuck cannot chuck wood, the antecedent is false, so any answer is vacuously true.  
Have fun!
